STRENGTHS

- **Highly Passionate Learner**

Always excited to learn from others no matter the subject. Ability to engage with a wide variety of areas; intellectual, digital, physical, etc. Expanding my skill set and being able to engage with those teaching me is one of the biggest things I look forward to in any experience.

- **Interpersonal Skills**

Love for relating and connecting with others. Many returning clients, collaborative partners and team members from past projects cite passion, good morale and stoking a positive working environment as factors that make me pleasant to work with.

- **Customer Service + E-Commerce**

4+ years of positively interacting with clients, discussing orders, handling transactions (in person and online), communicating statuses/time frames and delivering goods digitally.

- **Adaptability**

I pride myself on being open-minded and quick on the pick up. I accept critique with open arms and I'm always looking to apply my skills in ways that most benefit the environment and constraints I'm under.

- Adelaide Arcade Art Competition - Grand Prize Winner
- AIE Certificate III 2023 - Best Conceptual Artist

OBJECTIVE

Aiming to find a workplace that I can learn and grow in, I'm greatly excited to meet new people and contribute to the creative community.

Aiming to enter the Visual Entertainment industries (Games, TV, Film) to grow my artistic abilities as well as to connect with fellow artists. Aiding in the creative process would be a great honour that I've been looking forward to for a long time.

I would love to be challenged and have the opportunity to learn about things I might not have on my own, I find these developments towards both my personal and professional understandings of myself incredibly valuable.

I'm currently based in Adelaide, SA but I'm open to finding work elsewhere.
